Preparations for Annual Day celebration

The students at our school have enthusiastically begun their preparations for the upcoming Annual Day celebration. With great excitement, they have started rehearsing for various performances, including dance, drama, music, and more. Teachers are working closely with the students to ensure that every act is polished and ready for the grand event. The students are showcasing their creativity and teamwork as they come together to put on a memorable show. The energy and dedication they are putting into their practices promise that this year's Annual Day will be a spectacular and unforgettable experience for all.

Constitution day celebration 2024

On November 26, we celebrated Constitution Day at our school with great enthusiasm. A special morning assembly was organized to mark this important occasion. During the assembly, students took turns reading the Preamble of the Constitution, reminding everyone of the fundamental values it upholds. Our Principal also addressed the gathering, sharing insightful details about the history of the Constitution and

highlighted the importance of Constitution Day and encouraged students to understand and respect the rights and duties it provides to every citizen. It was a meaningful and educational celebration for all.

Medical camp for academic year 2024-25

Our school organized the annual medical camp for students on Nov 27, 28 and 29, which is held every year to ensure the health and well-being of all. Station Medicare Centre Team of 43 Wing and our Health and Wellness Teacher played a key role to complete the camp successfully. The medical camp provided students with health check-ups, and important guidance on maintaining a healthy lifestyle. It was a great initiative to make sure that all students are in good health and receive any necessary medical attention.

Trip to Nilgiri Biosphere Natural Park

Our students of class 6 to 9, had an exciting educational trip to the Nilgiri Biosphere Natural Park on 29th Nov. The trip offered a unique opportunity for students to explore the rich biodiversity of the region and learn about various plant and species. Guided by expert naturalists, the students witnessed the beauty of the park and gained valuable knowledge about conservation efforts and the importance of protecting our environment. The trip was both fun and informative and was a memorable experience that enriched their understanding of the natural world.

SMC Meeting

The recent School Management Committee (SMC) meeting for QE SEP 24 held at our school on 29th Nov, was a productive and engaging session, attended by all stakeholders of SMC committee. The meeting focused on reviewing the school's progress, addressing challenges, and planning future initiatives to enhance the quality of education.

Exhibition

Our school recently held an impressive exhibition on Nov 30th for showcasing both working and non-working models created by students from various subjects. The students displayed their creativity and knowledge through models related to science, geography, history, and more. The working models demonstrated practical applications of scientific principles, while the non-working models highlighted artistic and theoretical concepts. All students had the opportunity to explore the exhibition, learning from each other's projects and gaining a deeper understanding of the subjects. The Pre – Primary Parents wintered the exhibition of appreciated the school for the effort.
